

Why Isōlaz™ Therapy?

There are several key differences between Isōlaz™ and other laser and light based skin rejuvenation treatments

- People who have tried Isōlaz™ have reported a visible reduction in pore size, improved skin tone and texture
- Only clinically proven painless laser therapy for deep pore cleansing and purification
- Does not require pre-treatment with anesthesia or numbing creams
- 7 times faster - faces can be treated in less than 10 minutes, legs and backs in less than 20 minutes
- Isōlaz™ combines skin rejuvenation with deep pore purification for radiant looking skin
- Isōlaz™ clinical studies show immediate results within 24-48 hours, including reduced redness and immediate drying/flattening of the blemish
- Isōlaz™ pore-purification therapy helps jump-start acne treatments helping your skin absorb topical medicines and moisturizers better
- Painless hair removal
- Treats all skin types

Only Therapy That Combines Vacuum With A Painless Laser To Deep Purify Your Pores

Isōlaz™ is the world's only aesthetic technology that combines vacuum with a **painless laser**

- **Vacuum:** Helps loosen & extract dirt, blackheads & excess oil from deep within your pores
- **Painless Laser:** Helps destroy acne-causing bacteria, uneven skin tone, sun damaged skin, facial redness, veins and unwanted hair

During Your Isōlaz™ Treatment

Before: Your skin will be hydrated with a soothing mist before applying the Isōlaz™ tip. Since the treatment is painless you won't need pre-numbing!

During: When the Isōlaz™ tip is placed on your skin, you will feel a painless, warm sensation. The process is repeated over the entire treatment area. In a recent clinical study, 100% of patients reported no pain during treatment. Treatment sensation was most commonly described as being similar to that of a warm massage.

After: There are no post-treatment regimes associated with Isōlaz™ therapy. Once your treatment is complete, you are free to resume your normal activities and you can apply make up immediately. In fact, you may find that your skin takes on a healthy glow and feels cleaner right away.

Acne, Skin Rejuvenation, Hair Removal, all with Deep Pore-Purification™

How Isōlaz™ Works

Isōlaz™ uses a unique combination of vacuum and a painless laser for clear, radiant skin free from acne, red and brown spots, sun damage and unwanted hair.

Place

The Isōlaz™ hand-piece is placed on the skin.

Activate

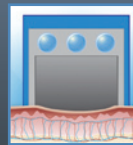

A vacuum gently lifts targets.

Treat

A painless laser is applied treating the targeted areas including acne, brown and red spots, sun damaged skin and hair.

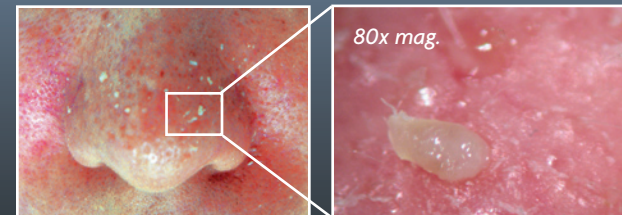

Clear

The vacuum gently releases the skin.

Isōlaz™ Also Purifies Your Pores

The Isōlaz™ vacuum applies gentle pressure on your pores while the painless laser helps destroy acne causing bacteria. This helps soften and remove blackheads, dead cells and other debris from deep in your pores resulting in radiant, clear skin that is purified from the inside out.

Isōlaz™ Helps Remove Blackheads, Oils, and Debris
